*Award Winning Cardinal Sin Vodka Rated "Exceptional"*

*One of the foremost spirits tasting organizations, the Beverage Tasting Institute, confirms that Cardinal Sin Vodka is truly unique!*

*The institute placed Cardinal Sin in its "exceptional" category with a rating of 90 points. Perhaps more importantly the institute noted the truly unique flavor characteristics of Cardinal Sin describing it as "an interesting range of flavors that will work well in fall and winter cocktails, particularly with cream." They went on to describe Cardinal Sin, "Aromas suggest creme brulee, fruit danish, praline and spice with a soft, dryish light-to-medium body and a grainy crusty raisin bread, chocolate milk, and pepper nuanced finish."*

*We are very excited that the BTI has recognized the unique flavors and aromas we have tried very hard to carry from our high quality grain ingredients into our finished product.*
